

Ankur Dhangar

Biostatistician

Lucknow, Uttar Pradesh - 226003 Mobile: +91 9935622490

Email: aashishkumarpal.2000@gmail.com

LinkedIn: www.linkedin.com/in/ankur-dhangar-b1b572254

Professional Summary

Biostatistician with experience in clinical research, statistical analysis, and healthcare data analysis. Skilled in survival analysis, systematic review and meta-analysis, network meta-analysis, statistical modeling, sample size calculation, power analysis, and statistical programming using SPSS, Stata, and R. Experienced in developing Statistical Analysis Plans (SAPs) and analyzing clinical and epidemiological data to support evidence-based decision-making. Experience in oncology research, pharmacokinetic and pharmacodynamic (PK/PD) analysis, and health economics and outcomes research (HEOR), including cost-effectiveness analysis and decision modeling using R.

Work Experience

Biostatistician

Mediception Science Private Limited, Gurugram, Haryana | Sep 2024 – Present

- Designed and implemented statistical models for clinical trial data.
- Developed Statistical Analysis Plans (SAPs) for clinical trials and research studies.
- Executed power analysis and sample size determination for Phase II/III studies.
- Performed meta-analysis and network meta-analysis for systematic reviews.
- Analyzed oncology data including survival rates and treatment outcomes.
- Analyzed pharmacokinetic and pharmacodynamic data by estimating maximum concentration (C_{max}), half-life (T_{1/2}) and area under the curve (AUC), and explained how these measures reflected the drug's absorption, clearance and overall exposure.
- Assisted in health economics analyses by preparing cost summaries and supporting cost-effectiveness evaluations using Markov models, incremental cost-effectiveness ratio (ICER), cost-utility analysis (CUA), and cost-benefit analysis (CBA) to assess the economic value of healthcare interventions.

Research Intern

CSIR - Central Drug Research Institute, Lucknow

- Prepared protocol for conducting meta-analysis and registered it on PROSPERO.
- Extracted data from different studies and performed meta-analysis using Stata.

Core Competencies

- **Statistical Analysis & Modelling:** Regression, Hypothesis Testing, Survival Analysis, Meta-Analysis, Network Meta-Analysis
- **Sample Size & Power Analysis:** Optimal sample size calculations for clinical and epidemiological studies.
- **Health Economics & Outcomes Research:** Cost-Effectiveness Analysis, Cost-Utility Analysis, Cost-Benefit Analysis, Decision Modelling
- **Statistical Software:** SPSS, Stata, R, RevMan
- **Data Analytics & Visualization:** Power BI, MS Excel
- **Document & Presentation Tools:** MS Word, MS PowerPoint
- **Data Management & Reporting:** Data cleaning, manipulation, interpretation
- **Guideline Knowledge:** Familiar with PRISMA, CONSORT, and ICH-GCP principles
- **Reference Management:** Zotero, Mendeley

Key Projects & Research Experience

- **Master's Thesis:** Identifying Risk Factors for Death Among COVID-19 Patients (2024)
- **Meta-Analysis Project:** Prevalence of Osteoarthritis in Southeast Asia
- **Statistical Modelling:** Survival Analysis of Patients with Chronic Illnesses
- **Oncology Research:** Evaluated survival trends and treatment efficacy using regression techniques
- **Sample Size Analysis:** Designed sample size calculations and power estimations for clinical trials.

Peer Review Experience

- **Peer Reviewer, Journal of Investigative Medicine | 2026**

Education

Master of Science (M.Sc.) in Biostatistics

University of Lucknow, Uttar Pradesh | 2022 - 2024

Bachelor of Science (B.Sc.) in Statistics

University of Lucknow, Uttar Pradesh | 2018 - 2021

Certifications & Training

- Advanced Training Course on Sample Size Determination & Power Analysis in Health Research – Resilient Foundation, New Delhi
- Online National Workshop on Systematic Review and Meta-Analysis– Resilient Foundation, New Delhi
- O-level Certification – National Institute of Electronics and Information Technology
- SAS Certification – Department of Statistics, University of Lucknow.

Workshops & Conferences

- ICSSR Sponsored Workshop: Cost Effectiveness and Decision Modelling Using R – Jawaharlal Nehru University (JNU), New Delhi | 06–09 August 2026
- Participated as a delegate in the "Webinar on Survival Analysis in Medical Research" hosted by School of Public Health, AIIMS Jodhpur and ECHO India on June29,2024.
- One-Week Online Workshop on AI-Driven Research and Qualitative Data Analysis conducted by Resilient Foundation for Academic Innovation & Scientific Research
- Three-Day E-Workshop on Computation and Standardization of Wealth Index conducted by Development Mirror.
- Participated in the 32nd Foundation Day event of the Department of Biostatistics &Health Informatics at SGPGI. which included a workshop on the role of biostatistics in evidence-based medicine, discussing challenges and opportunities.

Languages

- Hindi
- English

Soft Skills

- Analytical Thinking & Problem-Solving
- Report Writing & Data Storytelling.
- Attention to detail and data accuracy
